320 Howard Street

P.O. Box 11

Pritchett, Colorado 81064

Dr. Beverly Ming N.D., Medicine Women., DD.

719-523-6611

Dear Friend:

Thank you for contacting Natural Sources Wellness Center! We appreciate your interest, and are very excited about assisting you in any way we can. The mission of Natural Sources is to help facilitate health, both physical and spiritual, in the lives of God's people, enabling them to more effectively serve Him in His World. We focus on building better health by presenting nutritional choices and the principles of nutrition through "body detoxification" and rebuilding of the immune system. Our Clinic is a place where God's people can get away for a time to focus on improving their physical health and at the same time participate in a spiritual renewal, if one choose to.

In response to your inquiry, we are enclosing Clinic information and forms for registration. If your spouse/caretaker is accompanying you, they must complete an application. Fill out your application and mail or fax it to us **When we receive your completed forms we will call you to do a telephone interview.** Upon acceptance to the program, we will request a deposit of \$1,000 (per person) to reserve your room at the Clinic. Final balance will be collected on the first day of the Clinic session.

**Do not schedule your flight until you have talked to a staff member and been accepted to the Clinic.**

Natural Sources holds to the concept that the human body was designed by God for many years of disease-free, vibrant health if properly maintained and cared for. We firmly believe that illness and disease is caused by toxicity, stress, an inefficient digestive system, biochemical imbalances, mal-absorption of vital nutrients in the body, etc. We also believe that the human body has been designed by God for self-healing of degenerative conditions, given the right dietary and lifestyle changes. At the same time, we do acknowledge that at times there may be a need for more radical procedures such as drug therapy and surgery in order to get an aggressive disease process under control. However, these decisions lie outside the scope of what Natural Sources Wellness Center has to offer. We look forward to helping you on your path toward better health.

Thank you for this opportunity,

Dr. Beverly Ming, N.D., Medicine Women., DD.
